Dear Colleagues,

It gives us great pleasure to welcome you to the Pan Arab Interventional Radiology Society (PAIRS) Annual Meeting that is taking place on March 10-12, 2016 in Dubai, UAE.

Building on your contribution to the success of the previous PAIRS Meeting in 2015, we are delighted to welcome you in the metropolitan city of Dubai.

PAIRS is strongly committed to the principle of educational sessions leading the healthcare professionals to discuss and appreciate current and cutting edge technology and reach practical conclusions to help them in everyday practice. In this respect a three days’ meeting has been designed providing comprehensive case-based review and hands on experience covering topics in embolization, venous interventions, amputation prevention and neurointerventions.

The meeting is also a great opportunity to meet and network with colleagues in the field of IR. More than 500 healthcare professionals are expected to attend originating from the MENA region.

We look forward to welcoming you to this unique educational meeting, which we hope would be an enjoyable and fruitful experience to all.

Sincerely

Dr. Nadia Hammami
President PAIRS
Tunisia

Dr. Mohammad AlTwalah
Head of Scientific Program
Saudi Arabia
